APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application,  
 and do hereby grant the same, subject to the following limitations and  
 conditions:

This permit is issued subject to all existing rights on  
 the source. A valve must be installed and maintained to prevent waste  
 of water. A meter must be installed in the pipe line, near the point  
 of diversion, so that accurate measurements of water placed to beneficial  
 use may be obtained. This source is located within an area that has  
 been designated by the State Engineer as coming within the meaning of  
 the provisions of the 1939 Underground Water Act, as amended in 1943;  
 the State has the right to regulate the use of the water granted at  
 any and all times.

The amount of water to be appropriated shall be limited to the amount  
 which can be applied to beneficial use, and not to exceed 0.5  
 cubic feet per second.

Actual construction work shall begin on or before January 21, 1951

Proof of commencement of work shall be filed before February 21, 1951

Work must be prosecuted with reasonable diligence and be completed on or  
 before January 21, 1952

Proof of completion of work shall be filed before February 21, 1952

Application of water to beneficial use shall be made on or before

January 21, 1954. Proof of the application of water to beneficial

use must be filed with State Engineer on or before February 21, 1954
